

Espressione

IRIS ESPRESSO MAKER

The slick and powerful Espressione Iris combines the efficiency and elegance into one espresso machine. Engineered with a boiler based heating system to provide you powerful heating and 15 bars of automated pressure of steam thanks to it's commercial based pump. Has an overheating protection system to regulate heating, brewing and frothing mechanisms. Provides a large one liter water reservoir as well as a removable drip tray for easy clean up. Quality components, small footprint and solid performance make Iris the choice espresso/cappuccino machine looking for the best in their space conscience kitchen. The machines provides the user with manual control of amount, strength and duration of brewing and frothing. The beautifully efficient Espressione Iris works with both ground coffee or coffee pods.

TEM – B10
